Abstract

This is the abstract.

It consists of two paragraphs.

Keywords: OECD; Economics; Development

1 Introduction

This template is based on the generic OUP template available here. The original OUP sample tex document, providing more details on preferred formatting for LaTeX documents, is included with the template in the file `ouparticle_sample.tex`.

Here are two sample references: Feynman and Vernon Jr. (1963; Dirac 1953). Bibliography will appear at the end of the document.

2 Materials and methods

An equation with a label for cross-referencing:

$$\int_0^{r_2} F(r, \varphi) dr d\varphi = [\sigma r_2 / (2\mu_0)] \int_0^\infty \exp(-\lambda |z_j - z_i|) \lambda^{-1} J_1(\lambda r_2) J_0(\lambda r_i) \lambda d\lambda \quad (1)$$

*Corresponding author; Email:

This equation can be referenced as follows: Eq. 1

2.1 A subsection

A numbered list:

- 1) First point
 - 2) Second point
- Subpoint

A bullet list:

- First point
- Second point

3 Results

3.1 Generate a figure.

```
plot(1:10,main="Some data",xlab="Distance (cm)",ylab="Time (hours)")
```

You can reference this figure as follows: Fig. 1.

```
plot(1:5,pch=19,main="Some data",xlab="Distance (cm)",ylab="Time (hours)")
```

Reference to second figure: Fig. 2

3.2 Generate a table using xtable

```
df = data.frame(ID=1:3,code=letters[1:3])

# Creates tables that follow DUP guidelines using xtable
library(xtable)
print(xtable(df,caption="This is the table caption",label="tab:tab1"),
      comment=FALSE)
```

You can reference this table as follows: Table 1.

3.3 Generate a table using kable

Some data

Figure 1: This is the first figure.

Some data

Figure 2: This is the second figure.

	ID	code
1	1	a
2	2	b
3	3	c

Table 1: This is the table caption

Table 2: This is the table caption

	ID	code
1	a	
2	b	
3	c	

```
df = data.frame(ID=1:3,code=letters[1:3])

# kable can also be used for creating tables
knitr::kable(df,caption="This is the table caption",format="latex",
              booktabs=TRUE,label="tab2")
```

You can reference this table as follows: Table 2.

4 Discussion

You can cross-reference sections and subsections as follows: Section 2 and Section 2.1.

Note: the last section in the document will be used as the section title for the bibliography.
